From A.G.’s Collection

9-01-20

The knives on this page and pages 3 and 4 are a part of A.G.’s knife collection which he accumulated over the years. His collection is large by some measures and very small by others. He always told me that one of the reasons he started A.G. Russell’s List of Knives for Immediate Delivery, the first of its kind and now The Cutting Edge®, was because for a short period of time he could possess and enjoy any handmade knife he liked, which he could really not afford to own. His “knife list” allowed him to sell one knife and buy another.

A.G. was passionate about what he did and he chose to put his resources into building A.G. Russell™ Knives and into the growth of interest in knife collecting. While he loved handmade knives, he realized that not everyone had the funds to collect those higher priced knives. His theory was “get them interested in collecting limited edition factory knives and they will move to handmade knives as they learn more about knives”. Because of his intense interest and this understanding, A.G. was a big supporter of handmade knifemakers as well as existing knife manufacturers and new start-up brands. A.G. had a greater impact on the knife community as it exists today than most people know.
