Dear Customers and Listers with The Cutting Edge® and cuttingedge.com,

It is with great sorrow that I must tell you that we lost A. G. on October 12. I will be doing my best to take his place in our communication with all of you and with all of our customers. His shoes are huge and his influence great in the knife community around the world.

Many of you knew him personally, even if you had never had the opportunity to shake his hand. He had met many of you at knife shows, had talked to many more by phone and, as he indicated through the catalogs, magazine ads and e-mails, he thought of all his customers and the knife community at large as his friends.

The first copy of A. G. Russell's List of Knives for Immediate Delivery was mailed in 1968. At that time he was participating in Gun Shows around the country where he had the opportunity to purchase knives from the few men who were then making handmade knives and bringing them to those shows to sell.

He told me many times during the 36 years I have participated with him in the knife community, that he recognized early that the customers he had gained through his small Arkansas Sharpening Stone business loved knives, but were not able to travel around the country to these shows. It was that realization that led him to make that first mailing 50 years ago. That mailing grew into the strongest after-market consignment service for knives in the world, and today includes the printed catalog and the website cuttingedge.com.

A. G. Russell's List of Knives for Immediate Delivery morphed into The Cutting Edge® in January 1991 but continued to contain his list of knives for immediate delivery.

2018 marked the 50th Anniversary of that first mailing. For this final printed version of The Cutting Edge® for 2018, we have created a 50th Anniversary edition to recognize the anniversary and to honor A. G., his many contributions to handmade knives, and his innovative ideas in the use of materials, knife functionality and knife design in manufactured knives. Every individual and every knife company making knives today has been influenced by A. G. Russell, even those making knives who have no idea of what his contributions have been.

with great appreciation,

Goldie Russell, President
A. G. Russell Knives
